EXPERIENCE

INFOSYS |Software Engineer Intern | *Mysore, India*   *Feb, 2025 - present*
- Learning and implementing **Java, SQL, MySQL Server, C#, and .NET** in real-world scenarios.
- Gaining hands-on experience in **backend development** and database management.
- Working with **object-oriented programming** concepts to develop efficient solutions.

Fincart Financial Planner | Software Developer Intern | Noida, India   *Jun, 2024 - Dec, 2024*
- Worked on financial plan generation and approval systems, utilizing **Next.js microservices** and **Spring Boot** for scalable solutions.
- Developed a quota upgrade module in **Next.js**, enabling managers to set and update quotas for wealth managers via API.
- Converted HDFC Insurance API **SOAP calls to JSON** in **.NET**, improving data processing and integration efficiency.
- Implemented an insurance porting feature in **Angular**, integrating with a **Port API** to allow users to switch providers seamlessly.
- Promoted **clean code** practices and industry standards leading to a **50%** reduction in bug reports and better code Maintainability.
- **Identified and fixed a microservice logout issue** in the **Fincart frontend**, ensuring the inner microservice logged out synchronously with the outer application for a seamless user experience.

EL – FI Homes | **Frontend Developer Intern** | *Remote - California, US*   July, 2024- Nov, 2024
- Integrated **Google Solar API** to calculate user-specific solar panel savings estimates, significantly boosting user engagement by providing personalized and actionable information.
- Utilized **Maps API** for location data. Effectively conveyed information using **graphs** for improved understanding.
- Build all website Responsively with **Tailwind CSS in React.js**.

PROJECTS

Gig Verse | Spring Boot, React.js, Postgres SQL, Tailwind, JWT, Axios | Preview
- Developed a Freelance Marketplace Platform using the stack **Spring Boot and React.js**, leveraging **JPA** for optimized data fetching and **Zustand** for efficient state management. Integrated **MUI and JWT** to enhance functionality.
- Implemented gig management, allowing sellers to **create**, **update**, and **delete gigs**, and **manage orders.**
- Enabled robust gigs **filtering** and **searching** for efficient discovery of relevant services, complemented by a seamless **review** & **rating** system and the ability to hire freelancers.
- Deployed **messaging feature** for effective communication between buyers and sellers, enhancing user interaction and facilitating project discussions.

Swift Fix | MERN Stack| Preview
- Developed a web application using the **MERN stack** to efficiently connect users with trusted home repair service providers.
- Designed and implemented a **user-friendly interface** allowing service providers to showcase their skills by posting various services.
- Enabled users to effortlessly browse and **select desired services** enhancing accessibility and overall convenience.
- Improved the overall **user experience** through an intuitive design and smooth interactive features for better engagement

EDUCATION

Guru Gobind Singh Indraprastha University   2021 – 2025
- B. Tech – Information Technology**, CGPA: 9.0**

Spring Daisy Convent School   2020 – 2021
- Senior Secondary | **Percentage: 92.2**

TECHNICAL SKILLS

Languages: Java, C#, C++, JavaScript, TypeScript**,** SQL.
Technologies: React.js, Next.js, Angular.js, Spring Boot, Asp.NET, PostgreSQL, MySQL Server, Azure.
Frameworks & Methodologies: Git**,** Tailwind CSS, Bootstrap.

ACHIVEMENTS

- Certification of Appreciation for my work in project **Financial Plan Creation** at Fincart Financial Planner. **Certificate**
- Certification for Participating in a **Hackathon** Organised by GTBIT. **Certificate**
- Certification of Successfully Completing **JAVA** by INFOSYS. **Certificate**
- Certification of Successfully Completing **SQL** by INFOSYS. **Certificate**
- Solved **400+ DSA** Questions on LeetCode with highest **rating 1569**.
